

## STRADELLA-CY – Small single optic for efficient canopy lighting

STRADELLA-CY is a single optic that measures just 14 x 14mm and meets the requirements for modern canopy lighting. Whether you need to illuminate petrol stations or covered public spaces you can design luminaires that make the most of the LED performance and cost efficiency. These tiny optics are capable of high luminosity with both mid- and high power LEDs leaving more room for innovative luminaire design and installation options. Lenses can be stacked right next to each other or distributed in a more widespread fashion and still perform as intended. STRADELLA-CY offers compatibility, versatility and cost efficiency in a high performance small package for canopy lighting all over the world.

- » **Tiny single optic designed for efficient canopy lighting**
- » **Works in side-by-side and larger pitch installations**
- » **Compatibility with both mid- and high power LEDs**

### FEATURES and BENEFITS

- Cost efficient, excellent performance and light control
- 14x14mm single optics

### TYPICAL APPLICATIONS

- Canopy lighting
- Outdoor area lighting

## TECHNICAL SPECIFICATIONS

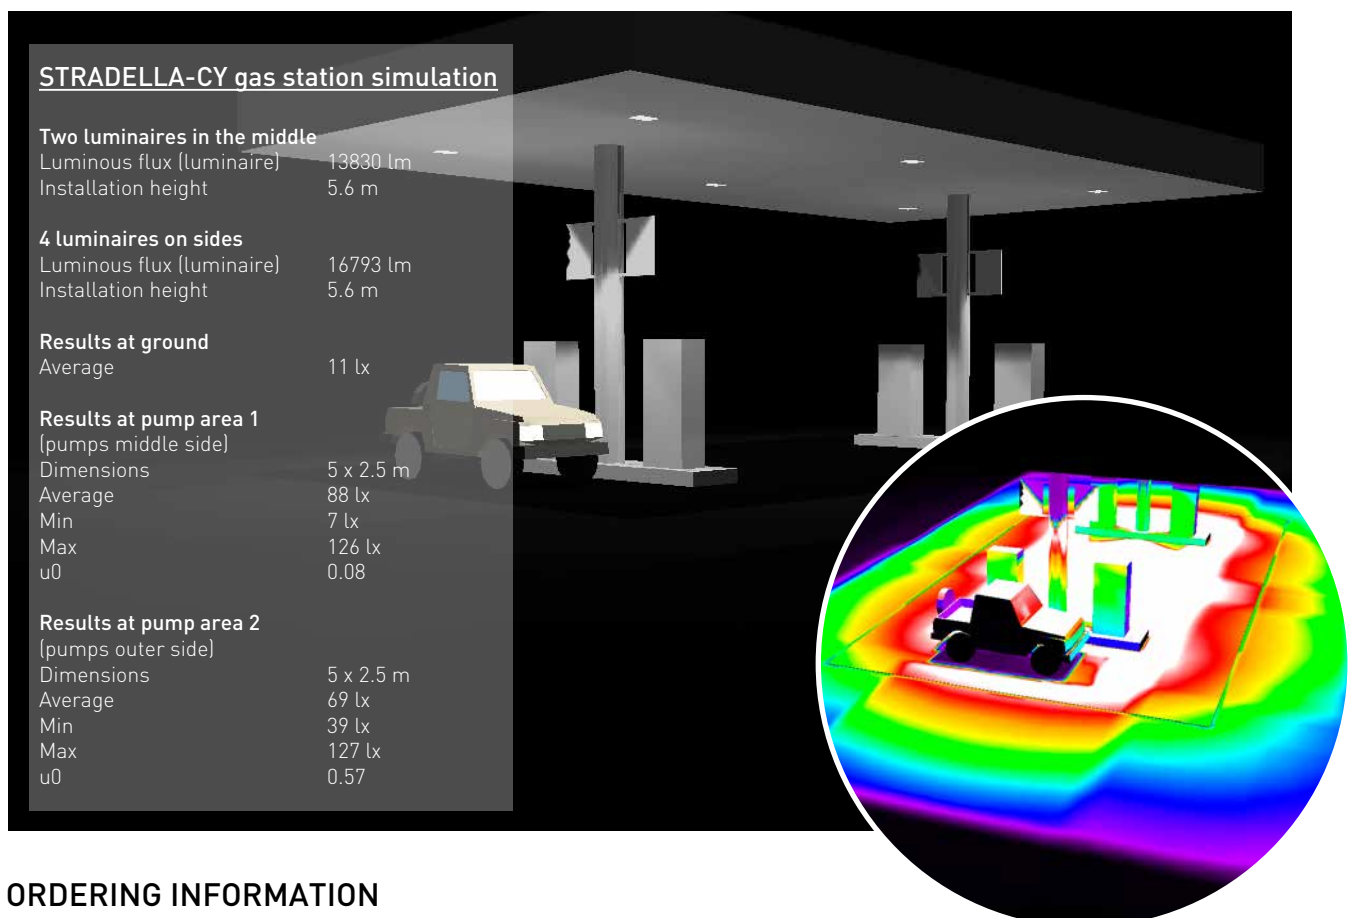

- Dimensions: 13,9x13,9 mm
- Height: 4,73 mm
- Typical FWHM: 115°
- Typical efficiency: 94%
- Precision-molded from optical grade PMMA – UL94 HB rated material with operating rating -40°C to +80°C

### COMPATIBILITY

- Up to 3535 size mid- and high-power LED packages

## APPLICATION EXAMPLE
