

## FLORENTINA-1 – Makes new modular designs possible

LEDiL's new addition to FLORENTINA-family is FLORENTINA-1, the single unit solution for building your most optimized and highly pleasing low-glare indoor lights. The compact design allows clustering FLORENTINA-1's seamlessly right next to each other, giving you the freedom to create different optical layouts for any space. Featuring a wide base of different optical solutions, fast tape installation and customizable outlook provides you an unbeatable all-in-one solution. Personalized faceplates can be made out of any material you like, not to forget all the different textures, shapes and colors you can use.

- » Compact anti-glare optic that works as a building block for different optical layouts
- » Hybrid design of a black reflector and lens designed for high visual comfort applications
- » Higher intensity and less spill light compared to metallized reflectors

### FEATURES

- Standalone optic to complement FLORENTINA-family for wider installation possibilities
- Supports different mounting options and easy clustering right next to each other
- Customizable outlook (front panels can be fastened using screws or glue, and can be made out from plastic, metal, wood etc.)
- Easy and fast holder assembly with tape
- Can be implemented inside the luminaire
- Beams available from 10° to 60° to asymmetric and double asymmetric

### TYPICAL APPLICATIONS

- Office lighting
- Retail lighting
- Downlight applications
- Track lighting
- Indoor architectural lighting
