

GABRIELLA

Ø38 and 45 mm RGB and tunable white color mixing lens family

GABRIELLA is a RGB and tunable white colour mixing family with LEDiL's unique floret-type hexagonal surface ensuring excellent color uniformity. The optic comes with a black holder and there are positioning pins in both holder and lens parts making an assembly easy and accurate. GABRIELLA is available with or without a tape and 10° spot beam will be followed by medium and wide beams in 45 mm diameter as well as in a smaller 35 mm diameter.

FEATURES

- Special optic surface for uniform colour mixing
- Supporting the latest RGBW LEDs on the market
- Available in two different sizes
 - Ø45 mm GABRIELLA
 - Ø38 mm GABRIELLA-MIDI
- Holder design allows more space for components
- Accurate assembly with positioning pins
- Can be assembled with screws or installation tape

TYPICAL APPLICATIONS

- Stage lighting
- Architectural lighting
- Accent lighting
- 35-RS for technical lighting e.g. surgery light

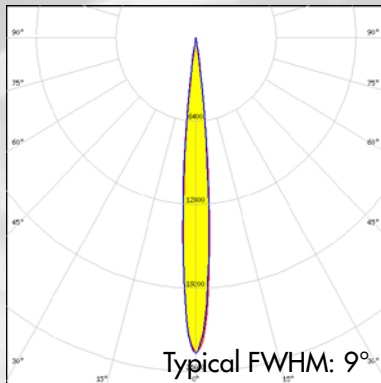

COMPATIBILITY

- Optimized for 5050 sized and compatible with 7070 RGB LEDs
